## **C) VERIFICATION OF BEE FORAGE**

The investor shall demonstrate to the Bank that it has the land required for the establishment of the bee forage area (by means of a title deed or a long-term lease agreement). The investor shall declare that it will maintain the planned crop in cultivation for the required period. The investor shall provide invoices demonstrating that the plants required for the planting were purchased from an officially supervised authorised supplier. The investor shall provide evidence of the establishment by means of photographs showing the date and GPS coordinates, together with invoices evidencing the costs of the establishment. In addition, the investor shall submit an annual report on the maintenance activities carried out (e.g. irrigation, wildlife protection, soil cultivation, pruning).
